

Duniway Park Project Update June 2017

Hello Neighbors, Friends, and Users of Duniway Park!

Construction fences will not be removed in Summer 2017 as we promised.....

THEY'RE COMING DOWN STARTING TODAY!!!

PP&R thanks Under Armour for their generous donation of the park improvements. Also, thank you to all of the neighbors, community organizations, schools, partners, and neighborhood association for your engagement in the planning and design process.

The track & field will be open for drop-in use once all the fences are removed.

Some additional work will continue to happen on the site including striping on parts of the track (some more dry weather is needed to complete this process.)

Please be respectful of contractors and heed their guidance for avoiding wet paint.

Help Us Maintain a Great Facility

We need your help to keep the track & field safe and in high quality shape for a long time.

Here are some friendly reminders for your new track & field:

- No dogs or other animals
- No metal cleats (molded cleats allowed)
- No food, gum, seeds or beverages except water

For a full list of **Duniway Track & Field Rules**, please visit:
