

Rocky Butte View Clearing Project Update October 2017

Hello Neighbors, Friends, and Users of Rocky Butte!

Earlier this month, PP&R's Tree crew was on site to start the project. The team ran into addressing some emergencies that required their expertise but quickly resumed work on Wednesday, September 13. We are crossing our fingers that minimal to no emergencies for the duration of this project.

Tree work directly adjacent to the loop has been completed. Additionally, the logs left directly adjacent to the roadway are planned be picked up by the end of the project.
