

NET CALL DOWN DRILL: AFTER ACTION REPORT (AAR)

Quarter 2 Drill Completed on May 9, 2014

Background

In order to deploy NETs quickly and efficiently, the Portland Bureau of Emergency Management (PBEM) must have the capability to send an automated message to all Active and credentialed NET volunteers at any time. For this purpose, PBEM conducts quarterly call down drills using the Health Alert Network (HAN) system administered by the Oregon Health Authority.

HAN is capable of sending a phone call/text message/email to recipients indicated in a spreadsheet loaded into the program. HAN also has text-to-speech capability, meaning a user can load a typed message that recipients will hear as a voice phone call.

Drill Objectives

- Test the call down system through HAN;
- Maintain volunteer expectations of how they may be deployed;
- Improve on the response rate from the last drill (16.5%) by increasing at least 15%.

Drill Setup

Following the first quarter drill, the NET Coordinator immediately reported the results to volunteers as well as information to help them prepare for the next one. Volunteers were intentionally provided little notice of the second quarter drill, but did receive an email with preparation information the morning before PBEM launched the drill.

PBEM conducted the Q2 drill from Portland's Emergency Coordination Center (ECC). The NET Coordinator loaded HAN with 661 phone numbers to call.

The message heard by recipients read:

"EXERCISE. This is an EXERCISE of the Portland Neighborhood Emergency Teams. This is only an EXERCISE. At the end of this message press one on your keypad or the computer will call you twice.

"Please confirm that you received this message by calling 503-823-2323. This number will be repeated at the end of the message if you need to write it down.

"Thank you for participating. The Portland Bureau of Emergency Management is conducting a call-down drill of the Portland NETs. Please respond to this message by four pm on Friday, May ninth by following the instructions.

NET CALL DOWN DRILL AAR: 2014 Q2 drill

"Please confirm that you have received this message by calling 503-823-2323. A PBEM representative will take your call or you will receive a recording asking you for the following information: your name, the date and time, and your NET affiliation.

"Thank you again for participating. End of exercise."

The NET Coordinator divided the list of 661 phone numbers into four "waves" to call between 14:00 and 15:40. Waves were distributed as follows:

Time	# of phone numbers
14:41:13	165
14:56:16	165
15:23:19	165
15:40:41	166

HAN attempted every phone number inside of an hour either once or twice.

Results

Of the 661 numbers called, 329 volunteers (50%) returned the call to the ECC and confirmed receipt. This is a substantive improvement over the 16.5% call back rate of the Q1 drill.

The call reports generated by HAN do not reflect the same number because, as with the previous drill, not every volunteer pressed "1" on their phone at the end of the call. Nonetheless, the call report can help explain why not every volunteer was able to call in (see sidebar). The call status for each individual volunteer is attached to the end of this AAR.

Goals for Next Call Down Drill (Q3)

- **Test response rate of call returns when volunteers receive no prior notification of drill.**
- **Attempt to reach Active volunteers by text message as well as voice.**

Line Failure

Q1: 3 (1%)

Q2: 22 (3%)

A difficult problem to diagnose precisely; it probably means the number was bad or a voicemail message interfered with the call.

Reached Maximum Attempts

Q1: 43 (7%)

Q2: 1 (>1%)

This means that HAN attempted calling the number as many times as programmed (either once or twice for the Q2 drill).

No Answer

Q1: 488 (84%)

Q2: 442 (67%)

HAN reached voicemail, **or** the call was picked up but the recipient did not press "1" to confirm to HAN that the call was received.

Message Received

Q1: 50 (9%)

Q2: 192 (29%)

Means that HAN called the number, and the recipient pressed "1" at the end of the message to confirm the call.
