

PRE-DEPLOYMENT

1. Secure your own home & family.
2. Check on neighbors, shut off utilities if appropriate.
3. Check in with SBNET via cell, text, or FRS/GMRS radio.
4. Gather your equipment. Stand by.

Wait for PBEM to call? Or self-deploy?

IF you self-deploy w/o PBEM approval, you are not legally protected by indemnification.

Rarely a problem, but --

IF you think a situation needs NET, call PBEM Emergency Activation Line 503-823-1410.

IF you don't call, or can't get through, you can still help, just don't wear NET logos.

IN a BIG disaster, PBEM might not be able to reach you, so self-deployment is pre-approved.

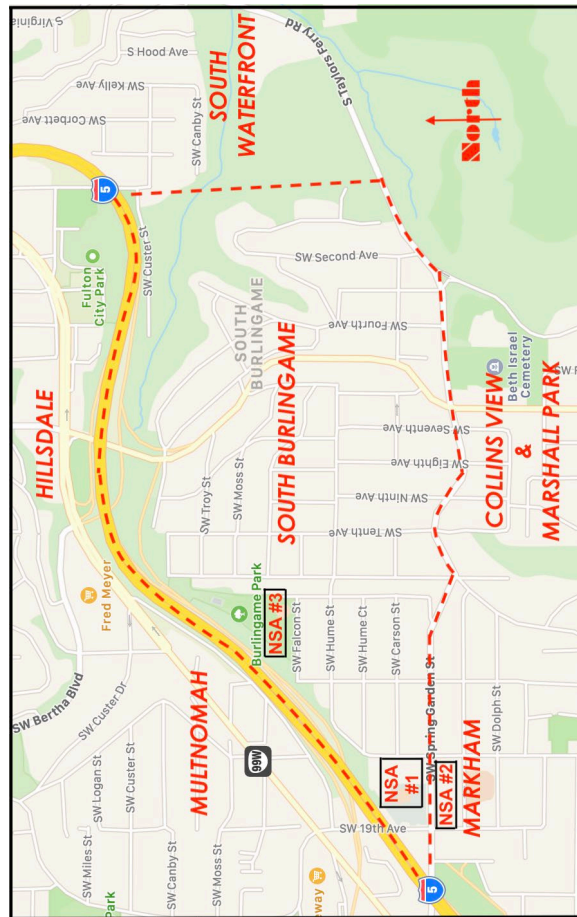

5. Go to the Staging Area.
6. En route, record damage & injuries on Form 1, Damage Assessment.
7. Ask SUVs to come to the Staging Area.

RULES OF DEPLOYMENT

- Your safety is your top priority.
- Never go alone. Never.
- Always work in teams of 2 or more.
- Know your team, and team leader.
- Inform leader if you need to leave.

NET SELF-CARE

- Self-care — your own physical and emotional well-being — is essential to help others.
- Don't try to ignore your physical needs: hydration, food, and bathroom.
- Take rest breaks, nap, sleep as needed.
- Take care of your fellow NETs by modeling and encouraging good self-care.
- In a disaster, feeling tense? Stressed? That's *normal*.
- Signs you need a break, or emotional support: extreme anger, fear, outbursts, sadness, confusion, exhaustion, feeling hopeless, or feeling nothing.
- If you see these signs in fellow NETs, respectfully and honestly share what you've observed. Encourage them to take breaks for food, water, and rest.
