Pre-Deployment

- Secure yourself, your family, and your place.
- Check in with NET team via:
 - cell phone,
 - SMS text message,
 - FRS / GMRS **radio on Channel 7**

Deployment

- **No self-deployment** unless all 3 conditions are met:
 1. Disaster is taking place.
 2. Communications are down.
 3. Have not heard from PBEM or Team Lead
 4. Proceed to **Staging Area**, if unsafe, to **Backup Staging Area**.
- *En route to Staging Area, observe and record damage / injuries* using Damage Assessment Form (ICS 1).
- Ask spontaneous volunteers (SUVs) to accompany you to Staging Area. Use Tyvek **colored wrist bands** to identify processed SUVs

Communications

- **PBEM phone** [REDACTED]
- **PBEM emergency activation** [REDACTED]
- Communicate using the chain of command.
- Document and communicate information about the disaster situation and resource status.
- Check in and maintain regular communications with Staging Area:
 - Cell / text contacts, or
 - FRS / GMRS **radio (channel 7)**
 - FRS max transmit power is now 2 watts
 - GMRS max transmit power is now 5 watts for shared FRS channels, and 50 watts for GMRS only channels (as of 2017)
- ARO actions during disaster
 - Relay **messages between ITL** (Incident Team Lead) and **BEECN ARO**
 - NET ARO deploys to the NET Staging Area with a portable radio and works face to face with the Incident Team Leader, and relays messages to BEECN ARO with the portable HAM equipment.
 - If no communications to BEECN ARO at the Staging Area, ARO deploys to PF&R Station 25 to use Fire Station Orange Go-Kit and antenna, communicating with ITL using FRS/GMRS radio

Onsite Management - abbreviated

- First NET team member is **ITL** until relieved.
- Handoff to new ITL always includes a situation briefing
- Team members turn in damage assessment forms.
- ITL sets priorities and assigns teams
- Check in and process **SUV's**, pass out wrist bands
