Annual Accomplishments

Years	Accomplishment Narrative	# Benefitting
2008	Although Human Solutions has tried to find financing this project ended up being deemed infeasible. The Portland Development Commission bought the property for \$1.9 M. No federal funds were used in the acquisition.	
2009	Project still looking for financing.	
2010	The Portland Development Commission bought the property for \$1.9 M. No federal funds were used in the acquisition. Project is still in financing stage for later development.	
2011	Glisan Commons Phas 1, being developed by Human Solutions, officially recorded and closed 11/19/12. Construction on phase 1 started 11/26/12. The construction schedule has the building complete by 12/26/13. First tenants are expected to move in January 2014. Funding is non-federal. The development of Phase 2 is uncertain right now - the project has a reservation of HOME funds 880,000 but because the developer REACH CDC did not get low income tax credits we are waiting for them to reapply before we will know whether the HOME portion will happen or not. If it does it is expected to start right as Phase 1 is finishing, in 2014.	
2012	REACH will be applying to OHCSs current notice of funding availability (NOFA) to access 9% low income housing tax credits - the application deadline is August 23. The project depends on an award of credits. PHB has made Glisan Commons Phase 2 its number 1 priority for 2013 NOFA funding. Assuming a positive outcome from the NOFA process, REACH will immediately restart pre-development work including reviving its pre-development loan request to PHB and with the HOME funding, construction would probably start in spring 2014.	
2013	Still in progress. Award was made through a request for proposals that ran concurrently with the Fall 2010 NOFA. Remember this was always planned as a two phase project with Human Solutions leading the first phase and REACH the second. The second phase was delayed a year when they failed to receive a 9% LIHTC award. The LIHTC award to REACH was actually made in 2013 instead of the hoped for 2012.	

Construction is scheduled to begin in April 2014 with completion approximately one year later.

2012	Project is underway. There are two funding components. The first is non-Federal and is using the City of Portland's Housing Investment Fund. This part is underway. The second will involve a sizeable CDBG loan and will happen in the next FY.	
2013	This activity remains open because the associated project is still underway. Predev portion was completed last year but construction loan is slated to close in December 2014 so this activity will remain open throughout the 2014 program year. As explained in the flag remediation plan, a. The predev was an early release of a portion of the developer fee for the multiphased restructure of the PCRI 43 scattered sites plus rehabilitation of the Maggie Gibson. As such, it is considered earned and has been forgiven. Phase 1 closed in January 2013. Because there are 43 properties involved, PCRI had to spend additional time evaluating the financials for each property, which is what caused the delay.

2014	<p>Year end 41 referrals were received and 30 households enrolled. Specific milestones in the program this year: Impact NW received and served two lead referrals from Multnomah County Health Department during the first quarter, a new source of referrals. Both clients were enrolled in the program. - With the change in this year's contract to allow Impact NW to serve a percentage of households with income up to 60% MFI, we have been able to help more households. Impact NW received additional funding during the 2nd quarter to serve the needs of families displaced from their homes due to fire, lead, mold and vacate orders. The additional funding increased the total number of families we served for the year. We moved to a more centralized location at 10055 E. Burnside St. Portland, OR. 97216, in January 2015. This site is convenient to public transit so that our relocation clients can have access their case managers. Thanks to a successful meeting between the Impact NW Relocation Program and the Red Cross on March 25, Impact NW received three fire referrals in less than a month and four during the final quarter.</p> <p>- The Relocation Program case manager continues networking with other organizations and landlords, enabling Impact NW to relocate 25 families into permanent, safe and affordable housing during the year.</p>

2014	LASO provides legal services to low income households in Portland experiencing Fair Housing discrimination.	
------	---	--

LASO data continues to indicate that numerically most of our fair housing complainants from the City of Portland are extremely low income people who are female, white, and possess a physical or mental disability. The majority of the complaints were from Northeast and Southeast Portland. This year, there was an increase in the number of African Americans LASO represented under this grant - about 25% of the overall clients were African American, up from 22% from last year. Across the board, there was an increase in the number of clients reporting eviction as the alleged discriminatory act. This number was 25 last year; this year it is 32. We continue to see a statistically significant number of domestic violence victims who also had fair housing cases based on their status. The number for Hispanic complainants doubled and is at about 9%. The Native American clients served under this grant was 0 (though we serve Native American clients with housing issues, these are not emerging as fair housing discrimination cases. These numbers reveal that the Native American and the Latino populations appear to be underserved by LASO in Fair Housing cases although this year, as noted above, the numbers have increased significantly.

NAYA Generations was conceived in recognition of the need to provide homes for hard-to-house foster children. The project is modeled after Bridge Meadows, an inter-generational intentional community in North Portland where foster children live with prospective adoptive families while receiving additional support from older people also living at the property. NAYA Generations will provide 40 housing units including twelve elder one-bedroom units and twenty eight garden-style apartments of one-, two-, three- and four-bedroom units. The garden style units are intended to serve a mix of elders and foster families. The project is located on land that will be leased from Portland Public Schools. Part of the programming for the project will include a partnership with PPS to serve the children living on the property. The project is also planned to contain a community center where programs and activities based in part on Native American traditions will be housed. The project received a 9% Low Income Housing Tax Credit award from the state of Oregon which will make up the bulk of project funding. All CDBG funds will be/have been used for pre-development activities.
