Notes:

Some projects are requesting multiple funding sources. "Primary request" generally means that source is the largest of the several sources requested.

"Total request" adds all non-primary requests to the "Primary request" amount.

The total number of units is the sum of the "Total Units : Primary Source" where the particular source can be combined with other sources, i.e. MCAHDF, City General Fund, CDBG, HOME plus the "Total Units" where the source can't be combined with another source, i.e. all urban renewal funds.
