Education and Training RFQ Draft Scope

In the FY 19-20 Budget, PHB received one-time funding for additional Landlord and Renter Education. This came in response to the RSC's requests for additional services to provide education and training to renters and landlords.

Final contract amounts have not yet been determined. PHB will be releasing a Request for Qualifications asking for organizations to submit their qualifications to provide the services.

Draft Scope

PHB is looking for organizations or collaboratives to provide education and training around changes to landlord-tenant law. Services will be provided for both landlords and renters together or separate. Organizations will be expected to develop a framework for education and training, work with PHB to finalize content and format, and provide in person training and education sessions at a variety of locations across the City of Portland.

Organizations will be asked to develop plans to effectively reach communities of color, landlords and renters unaware of recent changes in law, and other historically underserved communities.
