Gladstone Square and Multnomah Manor are two existing affordable housing projects owned by Home Forward and in need of extensive renovation. Both projects house an unusually high number of large, low income families. These projects will now be under a new limited liability corporation (LLC) called Square Manor LLC.

Gladstone Square is a garden style forty-eight (48) unit wood frame development constructed in 1997. It is located at 12020 SE Gladstone in the Powellhurst-Gilbert Neighborhood. The project has twenty-four (24) units restricted at 60% median family income (MFI) and twenty-four (24) units restricted at 30% MFI; including twelve 3-bedroom units and thirty-six (36) 2-bedroom units. The property has a community room, laundry facilities, a playground and parking. The majority of the households identify as Hispanic with Spanish as the primary language spoken.

Multnomah Manor is located at 9110 NE Hassalo St in the Montavilla Neighborhood. The project has fifty-three (53) units serving households with incomes from 50%-80% MFI. The project was constructed in 1969. The property has laundry facilities, a playground and parking. Twenty percent (20%) of residents are seniors and one third are African American. Thirty households earning less than 30% MFI utilize project-based vouchers provided through the Low-Income Housing Preservation and Resident Homeownership Act (LIHPRHA) program.

Both of these affordable housing properties are located in neighborhoods that are at risk of gentrification and displacement for low income residents. The affordable housing in these neighborhoods should be preserved in order to continue to provide safe and affordable housing for low-income residents.
