RE: Transmittal of 2nd DRAFT of Analysis of Impediments to Fair Housing

For the HCDC October 5, 2005 meeting, please find under this cover:

- 2nd Draft of the Analysis of Impediments to Fair Housing
- Draft/suggested HCDC resolution to forward the draft Analysis to HUD

As we discussed at the September HCDC meeting, this draft of the Analysis is what we will submit to HUD for their review. This Analysis is intended to identify fair housing issues. We have also identified what the current efforts are to address these issues.

We have not, however, begun the discussion about recommendations that either address gaps in the current efforts, or alter current efforts to better address issues. Future discussions will continue to engage stakeholders and community members.

This 2nd draft of the Analysis has arranged the big list of impediments in the first draft into four categories:

- Identified Impediments
- Significant Issues
- Other Related Issues

Supplemental material is included to provide clarification. Please see Section IV where these are defined and organized.

I'm looking forward to more discussion with HCDC members about the Analysis. I am asking that HCDC pass a resolution authorizing us to forward the draft to HUD, undertake next steps to complete the Analysis, and participate in developing recommendations to address identified fair housing issues.
