

**Analysis of Impediments to Fair Housing
Technical Committee**

July 11, 2005

Attendees: Present: Mickey Ryan, Carol Cade, Barbara Sacks, Mike Sheehan
Staff: Dawn Martin, Trell Anderson

Agenda:

1. Orientation to Analysis of Impediments (AI)
2. Data/Materials Needed
3. September HCDC Meeting
4. August Technical Review Committee Meeting

Reviewed purpose and scope of AI.

Discussed materials needed from the jurisdictions including copy of the jurisdiction's zoning ordinance and comprehensive plan; current and 1990/1995 zoning maps; relevant ordinances to housing and homelessness; list of boards and commissions that impact housing and their representation of protected classes.

In addition to the Technical Review Committee there is an Advisory Committee. Their role is to study issues and policy questions in the update.

The role of the Technical Review Committee is to determine if we are getting good data to Mike to evaluate.

It's very important to engage Gresham and Fairview.

METRO and Coalition for a Livable Future (CFALF) will have valuable data as well.

Set August meeting date for August 30, 2005, goal is to review initial AI draft.

The September 7, 2005 HCDC meeting staff will present feedback from the Technical and Advisory Committee about the draft AI.
