Chief's Letter

April 2008

As Portland's Chief of Police, I made a commitment to building the relationship between the community and the Police Bureau, maximizing the effectiveness of our resources, and developing personnel.

During the past year, the Police Bureau has civilianized positions that do not require the full range of police powers, allowing us to place more officers on the streets where they patrol neighborhoods and work with community members to solve public safety problems. The Police Bureau has focused on chronic offenders and chronic calls for service locations to reduce crime and the fear of crime. And the Police Bureau has improved our hiring and promotional processes to secure and advance the most qualified personnel.

But challenges remain. We hired 52 more officers in 2007, but 59 retired. We must replace old technology with new products that will improve the ability of officers to write reports and retrieve information from their vehicles. We must continuously assess the training we provide officers to meet the challenges of policing in a growing and diversifying community. We must improve our management information systems so that we can make smart decisions about allocating resources and improving our work processes.

Many of the accomplishments mentioned in this annual report brought the community and police closer together by improving officer training and encouraging innovative community policing activities. I would like to take the opportunity to highlight a few of the more significant accomplishments from 2007.

- The Police Bureau developed a business plan for a Regional Training Center (RTC) which involved ten potential police and fire agency partners. A RTC work group is currently moving forward on land use and negotiations for the purchase of a suitable sized piece of real estate.
- A Racial Profiling committee was established as a cooperative effort between the Police Bureau and
  community members from diverse populations to evaluate traffic and pedestrian stops data and provide
  recommendations on potential changes.
- The Police Bureau created a Redistricting committee to examine the district configurations of each precinct and make recommendations to more equitably balance the call load within the precincts. The Bureau solicited feedback from the community, made adaptations based on the feedback, and will implement changes during the summer of 2008.
- Electronic Field Reporting continues to advance as officers are now able to assign case numbers to their reports from the field and can fill out reports using electronic input forms. Officers can also view police reports via the Police Bureau's Electronic Document Management System (EDMS). The Police Bureau is beginning to outfit patrol cars with laptop computers, thus enabling them to complete police reports in the field.
- A Service Coordination Team was created as a collaborative effort with social service providers to have a
  positive impact on livability issues in downtown Portland and inner city neighborhoods. Housing and drug
  treatment are offered as alternatives to incarceration to the most chronic drug and drug-related property
  crime offenders.

These are a few of the highlights of the Police Bureau's accomplishments in 2007. Please take time to read through this annual report and note the good work officers are doing each and every day.

Sincerely,

Chief of Police

Roberno Meliza

**Bike patrols:** Southeast Precinct created a two-officer unit that works directly with residents and businesses to abate street-level nuisance issues such as transient-related trespassing and camping, public intoxication and street-level drug dealing. Currently the patrol is visiting businesses to educate them on a new car prowl abatement program.

**Civilianization:** The Bureau is examining changing selected current positions from sworn to non-sworn. In 2007, two positions were re-classed from sworn position to civilian (i.e., Personnel Manager, Property Evidence Manager) and a new non-sworn position (Manager) was created for the Office of Professional Standards.

**CrimeMapper:** Significant enhancements were made including separating the category of theft from auto (car prowl) from the main larceny category, and adding all Part II (for example, drugs, prostitution, weapons) crimes for a total of 28 categories. In addition, a subscriber monthly summary email notification feature was also added.

**Crime prevention Class:** East Precinct partnered with East Multnomah County law enforcement agencies to present crime prevention classes to residents in East Portland on topics such as identity theft and fraud.

**CrimeStats:** A new online Internet tool was developed to allow Bureau and community members the ability to customize a crime statistics report per Portland neighborhood associations. An individual can generate a report of Part I and Part II crimes for a specified period of time for any neighborhood, allowing the individual the ability to analyze current crime trends over five years in their neighborhood. CrimeStats will go live in January 2008.

**Crisis Intervention Team:** The Police Bureau instituted on-going crisis intervention training for all officers. Since February 2007, 275 officers have been trained.

**Electronic field reporting:** In January 2007 Police Officers began assigning case numbers in the field, thus providing citizens with this key information at the time the police report is taken. Scanning of all police reports into an Electronic Document Management System (EDMS) started in April 2007. In November 2007 officers were able to electronically complete their reports using PDF input-forms of the Investigation report, Custody, and Special report.

**Emergency Management Unit (EMU):** A number of high profile projects took place in 2007 that addressed regional strategic plans, improved grant funding processes, and ensured compliance with federal guidelines and regional strategies. In addition, the EMU began work to develop Continuity of Operations (COOP) plans in order that public safety operations continue in the event of a major catastrophe. Training on the National Incident Management System (NIMS) and the Incident Command System (ICS) also continued.

**Enhanced Safety Properties Program:** A collaborative effort to address public safety concerns in New Columbia was implemented between North Precinct and the Office of Neighborhood Involvement crime prevention staff. A computer screen was designed using the dispatch system so officers can submit information on problem properties from their patrol car computer.

**Force data collection form:** Finalized in 2007, the new reporting form was created in response to the analysis and recommendations of the Use of Force Task Force. The form essentially captures the same data as previous forms, but in a more intuitive manner so there will be less over-reporting and more accurate data analysis. It will also be one of the electronic field reporting forms.

**Fraud prevention:** The Detective Fraud Unit partnered with Ross Hollywood Funeral Home to develop a fraud safety program for vulnerable seniors. A volunteer from Ross Hollywood instructs seniors on how to keep safe from scams, and other frauds.

**Information sharing:** The Police Bureau joined the Law Enforcement Information Exchange Northwest (LInX NW Project) in 2007. This database was founded by the Naval Criminal Investigative Service (NCIS) and hosted by the Seattle Federal Bureau of Investigation (FBI) office. LInX NW represents data collected from 84 law enforcement agencies in Washington and Oregon and promises to be a valuable tool for the Police Bureau.

**Open all five precincts:** With hiring authority granted in 2007, the Bureau hired additional desk clerks. East, North, Northeast and Southeast precincts are now open for citizens during public hours of 8:00 a.m. to midnight. Due to Central Precinct's location the hours have remained 24/7.

**Parental accountability:** The Police Bureau worked with several communities and the Multnomah County Juvenile Justice to explore how to hold parents accountable for the actions of their children who are under the age of 14. Two curfew missions in Northeast and Central were conducted and the Gang Resistance Education and Training (GREAT) officers hosted parent relationship classes.

**Precinct bike rodeos:** The Traffic Division and the precincts worked together to host eight bike rodeos at New Columbia, Multnomah Village, Southeast and East Precincts during the 2007 summer. The bike rodeos were designed to increase bike safety for elementary students and instruct children on how to navigate the streets safely. Several bike shops inspected bicycles and replaced non-working bike parts. Legacy Hospital Trauma nurses ensured helmets fit securely and gave a demonstration about potential head injuries when children do not wear their helmets.

**Racial Profiling committee:** This standing committee was established by City Council to evaluate traffic and pedestrian stops data, provide recommendations on change and facilitate dialogue between the police and the community. Chief Sizer co-chairs the committee and other sworn officers participate along with community members who represent diverse populations.

**Redistricting committee:** Chief Sizer charged the committee to examine the district configurations of each precinct and make recommendations to more equitably balance the call load within the precincts. Considerations included precinct boundary and district realignments instead of broad changes. Recommendations from the committee will be vetted out at a series of community meetings beginning in January 2008. The last major redistricting occurred in January 1995.

**Red light camera expansion:** The Bureau's Traffic Division worked in collaboration with the City of Portland Office of Transportation to add six new red light cameras to Portland intersections. This will increase traffic safety at signaled intersections and generate additional program revenue.

**Regional training center:** The Police Bureau has developed a business plan which was distributed in September to 10 potential regional law enforcement partners. A work group including the City of Portland Office of Management and Finance, Bureau of General Services, the City Attorney and the Police Bureau are moving forward on land use and other issues, and negotiating for the purchase of a suitably sized piece of real estate for the Regional Training Center.

**Service Coordination Team:** Using a collaborative effort with social service providers, the goal of the team is to have a positive impact on livability issues in downtown Portland and inner city neighborhoods. Employing data analysis to identify the chronic criminal offenders in specific neighborhoods, long term strategies are developed to address their underlying criminality. These strategies include providing housing, drug treatment and mental health services.

**Southeast Quality Assurance Program:** In September, desk clerks at Southeast Precinct were trained to make calls to victims of residential burglaries for a customer service satisfaction survey. The goal of the program is to help enhance officers' contact with victims.

**Technology Upgrades:** Work began on two major technology upgrades. As part of a city contract, the Police Executive Research Forum (PERF) began defining the system requirements for a new Records Management System (RMS). The current Portland Police Data System has been in use since 1984. Work has also started on replacing the Mobile Digital Computers (MDC) in the patrol vehicles with laptop computers. Units from two manufacturers have been installed in several cars for testing.

**Top Officials (TOPOFF 4):** TOPOFF is a series of national-level domestic and international exercises designed to improve preparedness and response capabilities to large-scale terrorist attacks. In October Portland was one of the sites for the fourth TOPOFF exercises which were planned by the Department of Homeland Security. The Police Bureau participated in the exercises and as a key partner in the federal TOPOFF exercises was instrumental in coordinating many of the efforts.

  Ofc. Dan Romanowski, Ofc. Anthony Zoeller, and Havilah Ferschweiler For
  their efforts to create a safe environment within the New Columbia Housing
  community.
- David Lauten and Robert Mahoney For providing valuable assistance to North Precinct officers and for their dedication and service as members of the St. Johns Foot Patrol.
- Southeast Precinct Bike Patrol Ofc. Phil Blanchard, Ofc. Robert Pickett, Ofc. Robert Quick and Ofc. Anthony Zanetti – For their efforts in building positive relationships with Southeast community members and ridding Southeast neighborhoods of criminal activity.
- Ofc. Betty Woodward For her persistence in giving Downtown street kids "The Wall" and for showing how thinking outside the box can improve the community.

- Portland Patrol Ofc. James Bare For his dedication and service which has proved a benefit to those who live, work and pass through Old Town/China Town
- TJ Browning For her outstanding participation in preventing crime within the community, local schools and with the elderly.

#### **Nathan Thomas Memorial Award**

The Nathan Thomas Memorial Award was awarded to Ofc. James Nett for his work ethic in a situation that occurred on October 19, 2007, when a suicidal man holding a shotgun to his chin claimed he wanted to "end it." While other officers were getting in position to provide cover, Ofc. Nett calmly talked the man into dropping his weapon and walking out to the front lawn. Ofc. Nett then took the man to the hospital and arranged for him to talk with a mental health professional. Ofc. Nett's actions in this incident helped lead a crisis situation to a successful conclusion.

Note: Rates are based on 2000 U.S. Census residential population data. Many factors can influence the Rate/1000 Population calculations and can affect meaningful comparisons among neighborhoods. For example, the large work force in the Lloyd, Downtown, Old Town/Chinatown, Pearl and Northwest Industrial neighborhoods can distort the crime rate for those areas.
