

PPB Action Item Matrix – DOJ

The Portland Police Bureau has removed the “Action Item Matrix” from this website. This matrix has not been updated since November 2013. The matrix was an internal document for bureau member review to guide the work of individual divisions while waiting for direction from the US Department of Justice.

The Police Bureau has recently received feedback from the US Department of Justice and the Action Item Matrix is now no longer relevant for bureau member reference.

The main function of the matrix was to inform all bureau members which unit within the Police Bureau had the lead responsibility for each specific action item within the agreement and to state other work to be accomplished prior to the adoption of the US DOJ Agreement into federal court.

The US Department of Justice document referenced above is expected to be made available to the public this September. Once that document is available, it will be published on this website.
