September 2016 Committee Votes and Recommendations

The BHUAC recommends that when PPB trains officers about Directive 850.20, the following is highlighted:

- Under **About Mental Health Section 1:** Mental health is important (as opposed to indispensable) to personal well-being, family and interpersonal relationships, and contribution to community or society. Many people live with mental health issues AND are successful in life, have positive and health relationships, and contribute to community or society.
- Under **About Mental Health Section 4:** Mental illness is distinct from intellectual or developmental disabilities but they may be co-occurring.
