The Portland Police Bureau switched to the National Incident Based Reporting System (NIBRS) in 2015. 2016 was the first full year of NIBRS reporting. The Part I crime rate calculations for 2015 and later uses a modified hierarchal counting method that is similar to the method used by summary reporting system in prior years. The Part I crime rates pre and post 2015 are not directly comparable due to differences in the requirements for collecting and reporting incidents in NIBRS. The NIBRS crime rate and the Part I crime rate are not comparable.
