

# Bicycle to the MAX!

**Park and Ride with a front row spot:** Every MAX station has bike racks very close to the trains. Keep it simple and enjoy your rides.

- *Invest in a high quality U lock and park at the MAX stations; make sure you lock at least your front wheel and frame to the rack.*
- *Bikes are allowed on all TriMet vehicles and trains, but room on rush hour trains is tight. Since MAX takes you downtown to your work, why bother bringing it onboard?*

To explore renting a bike locker or more information, see the “Bikes on TriMet” brochure and [www.trimet.org/bikes](http://www.trimet.org/bikes).

## **The Bicycle:**

Always keep your bike locked, even in a garage or on a porch  
Make sure you lock at least one wheel & the frame to the rack or other fixed object;  
if you lock only the wheel, your bike can be detached & carried away.  
Take lights, mirrors & paniers with you.

## **The Lock:**

Invest in the best quality lock (or two) that you can afford; hardened steel U-locks are a good choice.  
Use two different lock types so that a thief would need two types of tools.  
Position a U-lock so the keyhole faces down towards the ground.

## **The Location:**

Look for a busy, well-lit place to park.  
Lock to sturdy objects that are securely anchored.  
Avoid locking to hand railings.
