

Welcome!

Focus of Tonight's Open House

Provide background on the process for identifying and selecting sidewalk projects to be built on arterial streets in SW Portland with \$8 Million of HB 2001 Funds allocated by Mayor Sam Adams

Introduce the projects to be built, share conceptual designs and gather public input on each project.

Organization of this Open House

This open house is set-up to be a self-guided tour of multiple stations. There will not be a formal presentation. You can take the tour at your own pace and choose which stations you want to visit. City staff is stationed at various mini-stations to discuss individual projects and answer questions.

You are welcome to submit written comments about individual projects or the broader process. Comment cards and collection box are available near the refreshments.

Please write down your comments and input!

Stations

- * Background and Project Selection Process
- * SW Huber Street: 37th Avenue to 43rd Avenue

Next Steps...

Continue with Project Development for each individual project, each on their own timeline.

Reach out to individual Neighborhood Associations and others groups depending upon the project area.

Presenation display boards from tonight's event will be posted on the PBOT website. Visit www.portlandonline.com/transportation and search for "SW and E Portland Sidewalk Infill" under the "Projects, Plans" tab.
