96	SE 162nd Ave	SE Haig St			X							11,000	35	2	N/A					Single-family neighborhoods

Explanation of columns on back of this sheet.

Explanation of Columns

Map #	Map number from Crossing Improvement Candidates map and Table 3 in <i>East Portland in Motion</i> report
Street	Street on which crossing improvement would be built
Crossing Location	Nearest cross street. Exact location of crossing subject to further analysis.
Traffic Safety Team	X = Project is under consideration by PBOT Traffic Safety Team and originates from a community request, planning project or other source. Projects highlighted in orange.
N'hood Greenway	X = Project is where a proposed neighborhood greenway would cross an arterial street. Projects highlighted in green.
> 1/4 mi Gap	X = Project originates from GIS analysis revealing gaps of 1/4 mile or greater between marked crossings on arterials with 3 or more lanes. Projects highlighted in purple.
EPNO LUTC Priority	X = Project is supported by one or more neighborhood associations or school districts, as reported by the East Portland Neighborhood Office Land Use & Transportation Committee.
EPAP Listed	X = Project is recommended in the <i>East Portland Action Plan</i> .
TSP Listed	X = Project is recommended in the <i>Portland Transportation System Plan</i> .
Inside Ped District	X = Project is located in a Pedestrian District shown in the <i>Portland Transportation System Plan</i> .
EPIM Sidewalk Project	X = Project is adjacent to an <i>East Portland in Motion</i> sidewalk project candidate.
SR2S Project	X = Project is listed in a <i>Safe Routes to School</i> engineering report for a nearby school.
ADT	Average number of automobiles passing project location per weekday, from 2008 Metro traffic model
Posted Speed	Posted speed limit (miles per hour)
Crashes	Number of crashes reported within a 200 foot radius of project location from 1993 through 2010. Numbers in red indicate that one or more crashes involved a fatality.
Transit Line	Route number of bus lines that travel along project street
Weekly Transit Peds	Average weekly ons/offers at nearest bus stop pair, 2010
Monthly Ramp Deploys	Average monthly bus ramp deployments at nearest bus stop pair, 2009
TriMet High Composite	X = Project is in a High Composite Score area (high ridership, low pedestrian amenities) identified in TriMet's <i>Pedestrian Network Analysis</i> .
TriMet Focus Area	X = Project is in a Focus Area recommended for pedestrian improvements in TriMet's <i>Pedestrian Network Analysis</i> .
Trip Attractors	Major destinations for pedestrian trips near project location, other than transit. Examples include schools, parks, shopping centers, large places of worship.
