PBOT has recently conducted a speed study on N. Wabash Avenue due to speeding concerns raised by residents. Although the measured speeds have not increased relative to studies conducted in previous years, we plan to take the following actions:

- **Set up a temporary speed reader board on N Wabash Avenue to alert drivers to their actual speeds. Speed reader boards dynamically and instantly report back speeds to drivers, so that immediate action by drivers can be taken to slow down.**
- **Add flags to speed limit signs to draw drivers' attention to the posted speed limit.**
- **Request traffic enforcement from the Portland Police Bureau to discourage speeding.**
