

Sidewalk Infill Project:

NE 102nd Avenue: Sandy Boulevard to I-84

NE 102nd Ave is a major traffic street that currently has segments with missing sidewalks. The goal of this project is to fill in those empty segments on NE 102nd Ave between Sandy Blvd and I-84 with new sidewalks. Also, any ramps that do not meet current ADA standards will be upgraded. Incomplete sidewalks negatively impact the mobility of people trying to walk, bike, or roll. This impact is especially felt on NE 102nd Ave because it is a busy five-lane road that is difficult to cross. Additional sidewalks and ramp upgrades will increase accessibility and safety in the community.
