

Sidewalk Infill Project:

SE Flavel Street: 84th to 92nd Avenue

SE Flavel St currently has segments with missing sidewalks. The goal of this project is to fill in those empty segments on Flavel between SE 84th Avenue and SE 92nd Avenue with new sidewalks. Also, any ramps that do not meet current ADA standards will be upgraded. Incomplete sidewalks negatively impact the mobility of people trying to walk, bike, or roll. This project aims to eliminate that by increasing accessibility and safety in the community.
