Outer Powell

6:10

The Outer Powell project came before this committee in August 2015 before final design decisions were being made. Now the project is entering its final design phase and the Oregon Department of Transportation has indicated that 8' buffered bicycle lanes are the preferred bikeway treatment. This discussion with ODOT project staff will be an opportunity to understand how the project team arrived at that design solution. Michael Mason, Matt Freitag and Jessica Horning will be on hand to discuss. April Bertelsen, PBOT project manager will also be in attendance.

Central City 2035 Plan Discussion

6:55

This will be a follow-up on July's presentation from PBOT staff about the Central City 2035 Plan with an eye toward developing a committee position on and communication about the plan. Focus of the discussion will be on changes in bikeway classifications from the Portland Bicycle Plan for 2030.
