Welcome to the Enhanced Transit Corridors Plan Open House!

The Portland Bureau of Transportation (PBOT) is leading a planning process in coordination with TriMet to develop the Enhanced Transit Corridors (ETC) Plan. This plan will help identify where transit priority, streamlining, and access treatments could be most beneficial on the planned TriMet Frequent Service network bus lines within the City of Portland.

The purpose of the Open House is to build awareness around the ETC planning process and to get your feedback on our initial methodology for prioritizing where to make improvements and staff recommendations for moving forward. See the questions we will be asking you below.
