NOTES

- For use on low volume residential street.
- Contractor shall have a copy of the traffic control plans on site at all times.
- Provide and maintain local access at all times for residents and businesses.
- All sign spacing to be 100 feet (maximum).
- Cone off work zone with 28-inch tall cones (minimum) or tubular markers with 20 foot spacing (maximum) on taper and 10 foot spacing (maximum) on corner radius.
- Close crosswalk, when required, with Type II Barricade and Crosswalk Closed sign. Only close one crosswalk at any one time.
- Remove on-street parking, as necessary, within work zone area to maintain required roadway width for Local Traffic.
- Install Road Closure Signs on Type III barricades.
- Provide notification to all property owners within road closure at least 2 days prior to start of work unless otherwise specified by contract or permit.
- Sign placement shall not restrict safe pedestrian and bicycle access.
- All TCP plans and signage requirements shall conform to current MUTCD.
