Standard Drawing Report

Date: November 8, 2017

Technical Owner: Signals – Charles W. Radosta, P.E.

Standard Drawing No. P-629 Calculation Book No. n/a

Drawing Title: Overhead Street Name and Aluminum Sign Mounting Details

Background Information, Including Reference Material:
The City added the overhead street name sign mounting detail in the mid-2000’s.

This standard drawing evolved from the Bureau of Traffic Engineering Standard Detail Drawings ("D" series drawings) developed in the 1960’s and refined periodically into the mid-2000’s. In particular, this drawing connects back to detail drawings D-411 and D-416.

Assumption Made:
The standard drawing excludes elements commonly provided by the manufacturer with the expectation that those components meet the appropriate structural and electrical codes.

Design Narrative:
This standard drawing denotes the desired horizontal and vertical positioning and associated mounting hardware for regulatory and street name signs.
