Standard Drawing Report

Date: November 13, 2017

Technical Owner: Signals - Charles W. Radosta, P.E.

Standard Drawing No. P-638 Calculation Book No. n/a

Drawing Title: Cable Placement and Clearance Details

Background Information, Including Reference Material:
This standard drawing evolved from the Bureau of Traffic Engineering Standard Detail Drawings ("D" series drawings) developed in the 1960's and refined periodically into the mid-2000's. In particular, this drawing connects back to detail drawings in the D-850 series.

Assumption Made:
No major assumptions were made.

Design Narrative:
This standard drawing denotes the desired overhead cabling attachment onto wood poles based on a variety of configurations.
