Standard Drawing Report

Date: November 13, 2017

Technical Owner: Signals - Charles W. Radosta, P.E.

Standard Drawing No. P-651 Calculation Book No. n/a

Drawing Title: Street Lighting Cobra-Head Pole Details

Background Information, Including Reference Material:
This standard drawing evolved from the Bureau of Traffic Engineering Standard Detail Drawings ("D" series drawings) developed in the 1960's and refined periodically into the mid-2000's. In particular this drawing connects back to detail drawings D-900.

In the past few years the City has made changes to this drawing to allow for competitive bidding from multiple manufacturers.

Assumption Made:
No major assumptions were made.

Design Narrative:
This standard drawing denotes the various cobra-head pole and arm options.
