Metro/ODOT Regional Mobility Policy Update

6:10

Kim Ellis, a Principal Transportation Planner for Metro will present. Metro and ODOT are working together to update the policy on how the region defines and measures mobility in regional and local transportation system plans and during the local plan amendment process in the Portland area. The current 20-year old mobility policy is contained in the [Regional Transportation Plan](#) (RTP) and Policy 1F of the [Oregon Highway Plan](#) (OHP) and measures the ratio of motor vehicle volume to motor vehicle capacity during peak travel periods to identify transportation needs. The planning effort is in the scoping phase. Project staff will seek input from the BAC on the draft project objectives and proposed approach. Feedback will inform development of a work plan and stakeholder engagement plan for consideration by the Joint Policy Advisory Committee on Transportation (JPACT) and the Metro Council later this Fall.

Streets 2035

7:05

Matthew Berkow, PBOT project manager, will discuss the Streets 2035 project, which will more clearly define the overall functions of the public right of way and will work to establish street types as the basis for design decision-making. The three-year project is currently in the Discovery phase.

Fixing Our Streets 2

7:30

Mark Lear with PBOT will describe the process and preliminary projects for Fixing Our Streets 2, which is intended renew the temporary nickel/gallon gas tax enacted in 2016 for Fixing Our Streets. That program is slated to raised more than \$64 million over the 2016-2020 period for maintenance and safety projects.
