

COMING SOON TO YOUR NEIGHBORHOOD!

MLK / Grand Transit Improvements

Project Highlights

By 2035, the Central Eastside is expected to grow by 7,000 households and 8,000 jobs. This project will support the increased travel needs, improving how people get to and move through the heart of the Central Eastside. MLK and Grand will include **Business Access and Transit (BAT) lanes**. Future pedestrian crossings on MLK and Grand will improve safety and access.

Benefits

BUSINESS ACCESS & TRANSIT LANES

Transit priority BAT lanes will allow the buses to access and get through the Central Eastside, relieving a major pinch point in the transit system. BAT lanes will benefit over 5,200 people who ride the Streetcar Loop A and B, and over 6,300 people who ride TriMet Line 6 every day.

COMMERCIAL TRUCK PILOT A transit, commercial truck, and turn lane pilot from Mill to Burnside streets will improve transit and freight reliability and access.

MOVING MORE PEOPLE These changes will increase the number of people that the street can accommodate by over 300%.

About Central City in Motion

Central City in Motion is PBOT's effort to plan, prioritize, and implement transportation improvements in the city's core. Following two years of public engagement, 18 projects were prioritized through this planning effort and approved by Portland City Council in 2018.
