

NEIGHBOR PLANTING CONSENT FORM

Need help? Visit www.portlandoregon.gov/trees, email trees@portlandoregon.gov, or call 503-823-TREE (8733)

Instructions

This form is to be used when you are required to replant as a condition of a Tree Removal & Replanting Permit and you wish to replant in your neighbor’s right-of-way.

1. Talk to your neighbor and get verbal permission to plant street trees on their property. Let your assigned Urban Forestry Tree Inspector know the neighbor’s address and the number of trees you wish to plant on that property.
2. The Tree Inspector will inspect the site, mark the curb next to where the trees are to be planted, and send the applicant the Approved Street Tree Planting List that is appropriate for the planting space. The Tree Inspector will confirm how many trees can be planted in the neighbor’s right-of-way.
3. Talk with your neighbor to select which trees to plant from the Approved Street Tree Planting List.
4. Once you have selected the species and number of trees to plant, fill this form out completely and legibly. All information is required. Incomplete forms will be subject to delay.
5. Submit the completed form to the Tree Inspector assigned to your case or by *one* of the following ways:
 - by email to trees@portlandoregon.gov
 - by fax to 503-823-4493
 - by mail to Portland Parks & Recreation Urban Forestry, 1900 SW 4th Ave. Suite 5000, Portland, OR 97201
 - in person at the Development Services Center (DSC), 1900 SW 4th Ave. 1st Floor
 - Monday, Tuesday, Wednesday, and Friday from 8 a.m.–3 p.m.; Thursdays 8 a.m.–noon
 - Note: there may be a wait time at the DSC

Note: This form must be submitted before the Tree Removal & Replanting Permit will be issued.

Tree Planting Standards

- Tree species should be selected from the Approved Street Tree Planting List that is appropriate for the planting space. Find the lists online at www.portlandoregon.gov/trees/plantinglists or by contacting the Tree Inspector assigned to your case.
- Newly planted trees must meet the minimum caliper size (below). Caliper is defined as the diameter of a tree trunk, in inches, measured 6 inches above the tree’s natural ground line.

Development type	Street tree minimum caliper size
One and two family residential	1.5 inches
Multi-dwelling residential	2 inches
All others	2.5 inches

- Conifer trees must be a minimum of 5 feet in height at time of planting.

Sustaining a healthy park and recreation system to make Portland a great place to live, work and play.

- Newly planted trees must be watered during the dry summer months (May to October) for at least the first two to three years. Each tree will need approximately 15 gallons of water once a week. Trees should be watered slowly to penetrate the soil deeply.
- Trees must survive for at least two years after planting or must be replaced by the permit holder.
