

SECTION C – New Hazardous Material Inventory Report

Columbia South Shore Well Field Protection Program – Fuel and Hazardous Material Inventory

Company Name: _____ Date: ___/___/___ NAICS Code [8] _____

Functional Area(s) [1]	Common or Trade Name [2]	Chemical [3]	CAS No. (Important!) [4]	Physical State [5]		Quantity [6]	Hazardous Material Category & Regulated Threshold [7]					
				S	L		Halogenated Solvent	Hazardous Substance	Hazardous Waste	Petroleum Fuel	Non-Fuel Petroleum	
							> 10 gal or > 100 lbs (≥10% by wt)	> 50 gal or > 400 lbs (≥10% by wt)	> 30 gal or > 220 lbs (Any Conc.)	>50 gal in any Single Container	>50 gal in any Single Container	
<i>Ex. Shop</i>	<i>Example: Super Goop</i>	<i>Example: Tri-methyl-goop</i>	<i>Example: 123-45-67</i>		X	<i>55 gal</i>		X				

INSTRUCTIONS

1. Indicate the locations where the fuel or hazardous material is stored or handled. All storage and use must occur inside your facility or in a covered and contained area.
2. **Nonwaste:** Provide the common or trade name of the material. **Waste:** In lieu of trade names, you may provide the Waste Category.
3. Provide the chemical name(s) of the major constituents that exceed the concentration threshold(s) identified in Section 1.3.1 of the Reference Manual, which can be found at <http://www.portlandoregon.gov/water/29880>
4. Enter the Chemical Abstract Service identification number (CAS number). This can be found in Appendix B of the Reference Manual, which is searchable at the link above. Material Safety Data Sheets (MSDS) can be used as a reference.
5. Check the box that applies to each material: S = Solid L = Liquid
6. Enter the quantity of the material stored at this location. Report in Gallons if the material is a liquid, report in Pounds if the material is a solid.
7. Check the category that applies to each material reported. Per the definition of hazardous material in Section 1.3.1 in the Reference Manual, each hazardous material in this report is subject to WHPP regulation based one or more of the chemical categories above. More than one category may apply to each material.
8. To find your NAICS code visit: www.naics.com or www.census.gov/eos/www/naics
