Water Bureau Crews Responding to Two Main Breaks in SW Portland-Motorists Advised to Use Caution

PORTLAND, OR – Portland Water Bureau crews are responding to repair two main breaks in SW Portland this morning.

Crews are now on the 1600 block of SW Skyline Boulevard working to repair a four-inch broken water main. The north bound lane of SW Skyline Blvd. may be closed during the repairs; motorists are urged to slow down and obey flaggers.

The crew will then move on to repair an eight-inch main break located on the 4200 block of West Burnside Road, between NW Barnes Road and SW Fisher Lane, near the Pittock Mansion. The east bound lane will be closed in order to make the repair. One of the two west bound lanes will be diverted to be an east bound lane in order to have at least one lane going in both directions on W Burnside Road around the area under repair.

Motorists, bicyclists, and pedestrians are urged to use caution around the construction areas. Repairs are expected to go into the evening.
