

**COLUMBIA SOUTH SHORE WELL FIELD WELLHEAD PROTECTION PROGRAM  
HAZARDOUS MATERIALS DECLARATION**

**I. Name**

**II. Property Owner Name (if different)**

**III. Site Address**

**IV. Mailing Address**

**V. E-Mail Address**

**VI. Declaration**

***I certify that the information provided is true and accurate to the best of my knowledge.***

- There will be no hazardous materials, fuels or hazardous waste used, handled, stored or transported at this site.
- I will use, handle, store or transport hazardous materials or hazardous waste and have enclosed a Hazardous Materials Inventory and Site Plan.
- I don't know what type of use or business will occupy the building for which I seek a permit. I acknowledge that the property is in a groundwater protection area within which there are regulations, including structural site improvements, that may apply to the future use of this property per Portland City Code 21.35.

Please list all liquids, chemicals, products, wastes containing hazardous ingredients or constituents for which Material Safety Data Sheets are required, that will be used, stored, generated, or otherwise present on this site. Please prepare and attach a site plan showing all areas where these materials will be transported, loaded/unloaded, handled, used and stored.

Columbia South Shore Well Field Protection Program – Fuel and Hazardous Material Inventory [7]

Company Name: \_\_\_\_\_ Date: \_\_\_\_/\_\_\_\_/20\_\_\_\_

Functional Area(s) [1]	Common or Trade Name [2]	Chemical [3]	CAS No. [4]	Physical State [5]		Hazardous Material Category and Quantity [6]			
						Hazardous Material	Hazardous Waste Defined by DEQ	Petroleum Fuel	Non-Fuel Petroleum [8]
				S	L	Gallons or Lbs.	Gallons or Lbs.	Gallons	Gallons

1. On a facility map, indicate the locations where the hazardous material is stored or handled.
2. **Nonwaste:** Provide the common or trade name of the hazardous material. **Waste:** In lieu of trade names, you may provide the Waste Category.
3. Provide the chemical name(s) of the major constituents in the product/substance.
4. Enter the chemical abstract service identification number (CAS number) found in 29 CFR, if known for the constituent of highest concentration. Material Safety Data Sheets (MSDS) can be used as a reference.
5. Enter one of the following codes by using an "X" as it applies to the hazardous material's physical state: S = Solid L = Liquid
6. Include the maximum quantity potentially on-site at any time
7. <http://www.portlandonline.com/water/index.cfm?c=29880> – to link to Reference Manual and Appendices.
8. Means petroleum based products in any form, including, but not limited to, crude oil, fuel oils including gas and diesel, mineral oil, sludge, oil refuse and refined products. E.g. lubricants, non-PCB electrical insulating fluids, heat transfer fluids and coolants and grease. Gases are excluded from reporting requirements.
