

WHAT'S HAPPENING NOW

Tomorrow afternoon, Friday, April 27, at around 3:30 p.m. SW Sherwood Blvd. will be closed for about an hour.

A new pulverizer is being delivered to replace the current one as it undergoes maintenance. These are very large pieces of equipment, requiring a diesel tractor with a flatbed trailer for transportation. The new pulverizer will be delivered and off loaded to the parking area at the soccer fields. The old pulverizer, driven up from the construction site, will be loaded onto the trailer, then the tractor and trailer will head back up Sherwood to Kingston and exit the park. The whole process should take an hour or less.

Pulverizers are used on site to till or mix cement with native soils, providing proper fill material where needed. The old Reservoir 4 portion of the construction site has been the focus of pulverizer work. (see attached photos)
