

Reduce Your Risk to Lead in Water from Home Plumbing

- Test your water for lead.
Free kits: www.leadline.org.
- Run cold water for 30 seconds to 2 minutes to flush out lead.
- Do not cook, drink, or make infant formula with hot water from the tap.
- Install low-lead fixtures or a lead-reducing filter.

**Contact the LeadLine
to order a FREE
lead-in-water test
and other resources:**

- Free childhood blood lead level screening
- Free lead reduction workshops and services
