

WHAT'S HAPPENING NOW

Early Morning Work – Monday, February 25, beginning at 2:30 a.m.

The first early morning pour for the reservoir 3 foundation slab will occur Monday. This pour is weather dependent.

What to Expect:

- Crews will begin arriving at 2:30 a.m.
- Concrete trucks will begin arriving about 3:30 a.m. Trucks will be spaced about five minutes apart, and continue until early afternoon
- Trucks will enter the site from SW Sacajawea Blvd. (Madison Trail) and SW Jefferson St. They will off load and exit via SW Sherwood Blvd.
- Expect short delays
- Flaggers will be on hand to ensure the safety of all. Please follow their directions

Between 85 to 100 trucks will deliver 800 to 1,000 cubic yards of concrete. Trucks will offload their concrete into pumpers that will pump it down to the bottom of the site by hose and into the form. This is the first of 12-slab foundation pours that will occur on this project.

DID YOU KNOW?

The Portland Water Bureau's Water Line is dedicated to helping our customers with any concerns or questions regarding water quality issues. This includes, but is not limited to, water quality and pressure complaints and inquiries, and managing customer lead-in-water and metals test results. The Water Line staff can help customers troubleshoot water quality issues in the home and can coordinate with other Water Bureau departments to address customer concerns.

The Water Line operates Monday through Friday from 8:30 am to 4:30 pm and can be reached at 503-823-7525 or WBWaterLine@portlandoregon.gov.
